MATH

What is TeenEagle Math?

The International Mathematics Olympiad challenges students from Grades 3 – 12 to push their limits, sharpen their problem-solving skills, and showcase their talents on a global stage. Built on the British Mathematics Curriculum, **TeenEagle** Maths offers a unique blend of academic rigor, creative challenges, and exciting competitions designed for the brightest young minds around the world.

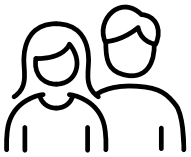

TeenEagle is not just a competition, but a platform that brings together young learners from around the world to share ideas, celebrate diversity, and grow academically and personally.

Benefits of Joining TeenEagle:

Students

- Builds strong problem-solving and logical thinking skills.
- Offers international competition experience and recognition.
- Boosts confidence through certificates and awards

Parents

- Supports academic excellence and future opportunities.
- Develops discipline, resilience, and critical thinking.

Schools

- Join a worldwide **academic network.**
- **Access** ready-to-use lesson plans, teaching materials, and club resources.

TMC Categories:

Categories	Birth Dates
TMC 1	2017 & 2018
TMC 2	2015 & 2016
TMC 3	2013 & 2014
TMC 4	2011 & 2012
TMC 5	2009 & 2010

Competition Rounds:

National Rounds

An online Qualifier Round with multiple date options based on the TMC curriculum.

Regional Round

A multi-day event in Riyadh, bringing together participants from across the GCC.

Global Round

Meet students from around the world at two distinguished events in London, as well as a third event taking place in Malaysia.

National Round:

TMC Qualification Exam (Online)	
Questions No.	30 Questions
Questions Type	Multiple Choice Questions
Time Duration	90 minutes
Language	English

1

Students who achieve a score of **60% or above** will be eligible to participate in the **Regional and Global Rounds.**

Based on the TMC Curriculum and covers Problem solving, Algebra, Geometry, Number Theory, Logic.

Dates:

Nov 07, 2026
Last Day of Registration:
Oct 31, 2026

Nov 28, 2026
Last Day of Registration:
Nov 21, 2026

Dec 05, 2026
Last Day of Registration:
Nov 28, 2026

Jan 09, 2027
Last Day of Registration:
Jan 02, 2027

Jan 30, 2027
Last Day of Registration:
Jan 23, 2027

Apr 10, 2027
Last Day of Registration:
Apr 03, 2027

Scoring Criteria:

Award	Score
GOLD MEDAL	90 % - 100%
SILVER MEDAL	75 % - 89.9%
BRONZE MEDAL	60% - 74.9%
HONOURABLE MENTION (CERTIFICATE)	40% - 59.9%

- All participants will receive a digital participation certificate.

Prizes:

National Round:

The **first-place winner in each level, each month, and each attempt** will receive one of the following options:

- A **50% discount** on the Regional Round participation fee.
- Or a **10% discount** on the Global Round participation fee under the **"Competition Only" package.**

Regional Round:

The first- and second-place winners in each level will receive discounts on the Global Round participation fee as follows:

🥇 **First Place:** 60% discount

🥈 **Second Place:** 50% discount

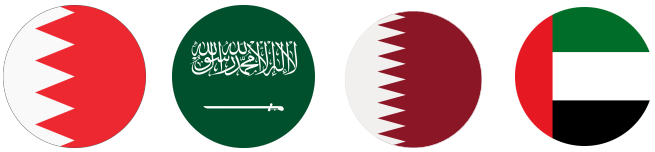

In addition, every participant who earns a **gold medal** will receive a **10% discount** on the Global Round participation fee.

All discounts apply exclusively to competition participation fees under the **"Competition Only"** package and do not cover any other costs or expenses, such as airfare, accommodation, or visa fees.

Preparation Resources for the TMC Competition:

Preparation for the competition is based on the following resources:

- The **competition's designated curriculum**, which serves as the primary preparation resource.
- **Questions from previous competitions** for practice and familiarity with the question format and difficulty level.
- **Weekly online training sessions** to support participants' preparation and strengthen their skills.

All resources, training materials, and weekly session schedules are available through the **competition forum:**

https://contestbag.com/forum

Registration:

Registration is available through the Contest Bag website:
https://contestbag.com/

Registration Fees:

Round	Fees
National	SR 245

TeenEagle Maths Curriculum:

Category	Topics
TMC 1	**Logical Thinking** • Balance Problems • Basic Sequences • Basic Number and Pattern Problems • Basic Age and Date Problems **Numbers and Operations** • Addition and Subtraction • Place Value of Ones, Tens and Hundreds • Rounding Numbers to the Nearest 10 or 100 • Basic Multiplication and Division • Fractions as Parts of a Whole **Geometry** • Classification and Properties of 2D and 3D Shapes • Partitioning Shapes into Equal Parts **Measurement** • Estimating and Measuring Masses • Measuring Lengths • Estimating and Measuring Liquid Volumes • Telling Time to the Nearest Minute and Time Word Problems • Interpreting Simple Charts

MATH

TeenEagle Maths Curriculum:

Category	Topics
TMC 2	**Logical Thinking** • Balance Problems • Basic Sequences • Number and Pattern Problems • Age and Date Problems **Numbers and Operations** • Place Value • Basic Number Operations and Functions • Rounding Decimal Numbers **Geometry** • Quadrilaterals and Circles • Rotational Symmetry • Shapes and Nets • Perimeters, Areas and Volumes **Sequences** • Counting and Sequences • Square and Triangular Numbers • Prime and Composite Numbers **Fractions, Decimals, and Percentages** • Understanding Fractions • Percentages • Equivalence and Comparison **Ratio and Proportion** • Understanding Ratios and Proportion

TeenEagle
MATH

TeenEagle Maths Curriculum:

Category	Topics
TMC 3	**Logical Thinking:** • Construction problems • Basic speed-distance-time problems • Advanced number and figure problems • Logical age and date problems **Numbers** • Integers, powers and roots • Place value, ordering and rounding • Fractions, decimals, percentages, ratio and proportion **Algebra** • Expressions, equations and formulae • Sequences • Functions and graphs **Geometry and Measure** • Angles, Parallel Lines and a Transversal • Perimeters, Areas and Volumes **Probability and Statistics** • Basic Statistics and Probability

TeenEagle
MATH

TeenEagle Maths Curriculum:

Category	Topics
TMC 4	**Logical Thinking** • Construction Problems • Speed, Distance and Time Problems • Advanced Number and Pattern Problems • Age and Date Problems **Numbers** • Fractions and Percentages • Powers, Roots and Standard Form • Growth and Decay • Time, Currency and Conversions **Algebra** • Algebraic Roots and Indices • Expanding and Factorising Expressions • Linear and Quadratic Equations • Functions • Simultaneous Equations **Graphs** • Linear and Quadratic Graphs • Graphing and Solving Inequalities • Graphical Solutions of Equations **Geometry and Trigonometry** • Right-Angled Triangles • Pythagoras' Theorem • Congruence and Similarity • Sine and Cosine Rules • Area of Triangles • Basic Trigonometric Graphs and Equations **Probability and Statistics** • Mean, Mode and Median • Basic and Conditional Probability • Statistical Diagrams • Histograms • Cumulative Frequency

TeenEagle Maths Curriculum:

Category	Topics
TMC 5	**Logical Thinking** • Construction Problems • Speed, Distance and Time Problems • Advanced Number and Pattern Problems • Age and Date Problems **Quadratics** • Solving Quadratic Equations, Inequalities and Systems of Equations • Equations Reducible to Quadratics • Graphs of Quadratic Functions **Functions and Transformations** • Composite Functions • Inverse Functions • Graphs of Functions • Graph Transformations (Translations, Reflections and Stretches) **Coordinate Geometry** • Equations of Straight Lines, Parallel and Perpendicular Lines • Equation of a Circle • Intersections of a Circle and a Line **Circular Measure** • Radian Measure • Arc Length, Sector Area

TeenEagle
MATH

TeenEagle Maths Curriculum:

Category	Topics
TMC 5	**Trigonometry** • Exact Values • Graphs of Trigonometric Functions • Trigonometric Identities • Trigonometric Equations **Binomial Expansion** • Binomial Expansion with Natural Number Powers **Series** • Arithmetic and Geometric Series • Sums of Series • Infinite Geometric Series **Differentiation** • Differentiation of Polynomials • Chain Rule • Gradients • Tangents and Normals • Applications of the Second Derivative **Mechanics** • Forces and Resultants • Newton's Laws • **Permutations and Combinations** • Permutations with Repetition, Permutations with Restrictions • Combinations of r Items from n Items
